

Dear Westshore Homeowners,

I am John Sanborn, and I am excited to announce my candidacy to serve on the Westshore HOA board. As a long-time resident of our community, I understand the issues that matter most to our homeowners. These areas of opportunity include repair and maintenance of our lake feature and surrounding architecture and landscape, community pride and a good neighbor mindset, and your rights as a property owner and area resident. I am confident I can positively contribute to the board and help guide our community toward a brighter future.

Some of you may recall my leadership role in the efforts related to "Lot 2D," the proposed Westshore Park location. In 2018, I worked with fellow community members to advocate for our community's needs in a town hall attended by residents in the Westshore HOA, Four Seasons HOA, and former Councilperson Angelique Ashby. Our efforts paid off when the city proposed a plan to utilize that land and provide a new park for our community.

My professional background in management and leadership has provided me with the skills necessary to be an effective board member. I have served as the Director of Housing for Washington State University, an operations manager and corporate HR leader for a Fortune 1 company, and a US Navy Veteran. I now serve as the Chief Learning Officer for the State of California, representing statewide policy and providing programming that focuses on core and leadership competency development for nearly 250,000 state employees in 149+ state departments. I have experience working collaboratively with diverse groups of people, managing budgets and resources, networking and influencing decision-makers, and making tough decisions. I am committed to using these skills to serve our community.

As a board member, my top priorities will be to ensure that our community remains safe and welcoming, maintain our property values through responsible management and planning, and promote transparency and accountability within the HOA. I will work to represent all homeowners' interests and make decisions that benefit our community. This is your home; you are an essential part of our neighborhood, and your voice should be heard.

I am honored to be considered for this position and would be humbled by your vote. Together, we can make our community an even better place to call home.

Your Neighbor,

John Sanborn  
Westshore Homeowner
